Wear your Mask Properly

Wash your Hands Regularly

Maintain Social Distancing

## **ABOUT THE WEBINAR**

In a world raging amid the Covid19 pandemic, the vulnerable and the marginalized groups have been rendered helpless at the violent end of the spectrum. From colossal apathy to full blown crimes, the numbers have seen a sharp increase. The helpline numbers are rendered insufficient with cries of help from all sectors.

Amid these, the elderly is especially affected.

Crime against elderly is already an under reported event owing to the complex filial nuances of society. The pandemic has only aggravated the situation where the crime has blown into proportions enough to be labelled as shadow pandemic. This webinar is an attempt to bring to light the grim reality and its causes along with hopeful solutions to the fore so that we can attempt to curb this menace at inter-personal level.
